

NUMBER: 2.19

TITLE: SCENT-FREE AWARENESS

APPROVED: March 24, 2015 REVISED:

SECTION: Overarching Policies, Procedures and Protocols

Many people experience health concerns arising from exposure to scented products. In order to create a safe, comfortable and welcoming environment for all service users, Members and visitors, SACHA asks that all staff, students, volunteers and people accessing SACHA strive to provide a scent-free space.

SACHA recognizes that being completely scent free is not always possible because many products (e.g. shampoo, deodorant etc.) contain scent; however, the use of scented products while onsite at SACHA is prohibited. In addition, all materials used for cleaning will be scent-free, wherever possible.

Staff, volunteers, students, service users and visitors will be informed of this policy through signs posted in the office, informational materials and verbal explanation.
